

What happened to the word *authentic*
that it sounds like the fakest one yet?

No to the authentic.

Yes to the honest.

No to the portrayed.

Yes to the experienced.

No to the flawless.

Yes to the distorted.

No to the controversy.

Yes to the discussion.

No to the statements.

Yes to the questions.

No to the monologue.

Yes to the dialogue.

No to the disregard.

Yes to love.

No to the neglected.

Yes to being heard.

Let's be honest,

Can we stand a difference yet?
